

SIMPLE STEPS TO HOME SHOWING **G** SAFETY

How to view homes in comfort.

CHAMBERLAIN
REAL ESTATE GROUP

1

JUST LOOK

As I'm sure we've all told 3 year olds, just use your eyes, this is a great strategy when looking at homes. We ask all sellers to open all interior doors (bedroom, closets etc), turn on all lights and open all blinds. We ask all buyers to just walk through the home and use your eyes and refrain from touching things in the home.

2

VIRTUAL VIEWINGS

If you are uncomfortable having your home seen by many people, or you don't want to go through homes in person, ask your Chamberlain Real Estate Group Agent to set up a FaceTime or video showing for you.

3

SHOWING KIT

If requested we can provide you a small kit with some essentials to use during the showing.
